APPLICABILITY

This rate schedule is applicable for whole house electric service to qualifying residential customers otherwise served under Schedule R-1. To qualify, the customer must certify in writing that electric service will also be used to charge one or more licensed electric motor vehicles (“EV”) either owned or leased by the customer. This rate schedule is not applicable to customers who participate in the energy, capacity and/or ancillary wholesale markets.

MONTHLY RATE

Distribution Delivery Charges:

Service Charge: \$17.33 per month

Energy Delivery Charges:

All kWh delivered @ \$ 0.01689 per kWh

Electricity Supply Service Charges:

The rate for usage in Off-Peak Hours includes an average of the 2022 projected PJM Dominion Zone Locational Marginal Prices (“LMPs”) for the Off-Peak Hours. LMPs are subject to change and the Cooperative may adjust the per kWh rate for usage in the Off-Peak Hours every fifth year to compensate for material changes in LMPs. Any such adjustment will be revenue neutral within the rate class by applying an offsetting adjustment to the rate for usage in On-Peak Hours.
